General Instructions: Same instructions as given in the Sample Paper 1.

READING

I. Read the passage given below.

1. *In this jet age, everyone is interested in making easy money. Thanks to the advancement in science and technology, these days life has become easier and more comfortable than earlier with a lot of domestic gadgets as well as instantaneous food recipes available in the market. This has resulted in making the people develop a mind-set to have anything immediately without waiting for—even at the traffic signals.*
2. *Most of us want results quickly. We want to reach the top immediately and get worked up when things go wrong. Perseverance and patience are forgotten words. We get upset, frustrated and angry when a skill or activity requires us to put in a lot of effort and time. We get dejected and want to give it up. Things should be easy.*
3. *Life is too short and there is not enough time to do all the things we want to. We tend to compare with others and get upset when they seem to be doing well and start believing God is being too kind to them and not to us. And so, we give up. But such thinking serves no purpose. For it doesn't solve the problem.*
4. *Success, real success and happiness come to those who have a 'bread-making' attitude. I hose who are willing to knead the dough, wait for hours for it to rise only to punch it down and knead some more,*

wait for another couple of hours for it to rise again, then bake it before it is ready to be eaten. Nothing is instantaneous. For every endeavor—whether in the area of career, academics, music, sports, relationships, physical fitness or even in spirituality—it is a long arduous journey.

5. *We can get results only if we are willing to spend time, put in painstaking effort and have faith. If we don't accept this difficult but true fact of life, our lives will be far from being happy and fulfilling. For we may not make that extra effort which can change the course of life dramatically for our benefit.*
6. *However, if we just pause to analyse what we are doing, we will realise how much time we are wasting searching for such magical solutions which simply do not exist. We actually save time when we stop this futile search and accept the proven methods of treading the straight and narrow path however difficult it may seem initially.*

Based on your understanding of the passage, answer ANY EIGHT out of the ten questions by choosing the correct option.
